Boxton, Mass., Oct. 20.-The whole story of the market today was

continued liquidation. The selling was the most aggressive in the New

York market while the local coppers were quiet. Lack of confidence

keeps all buyers away and there is very little demand for local stocks. We look for continued liquidation and lower prices before election.

Regarding this let me say that the Old Colory has about \$70,000 in its treasury, which at our present rate of expenditure would hast for about two years, and if a shaft a sank we should have funds sufficient to last one year.

On Acting. Acting is not a trade which tends to stability and dignity of character but encourages sensibility and flashed of warm instinct. Extreme alertness to praise and blame, harmoniously combined with vanity and absorption in one topic, are almost a necessity of the occupation; but this existence. now generally conceded that the however narrow and distorted, has the primal virtues of vividness and vital ity. It not only depicts human pas sions, but it also requires in its servants a varied and constantly read; fund of emotions and instincts. Lack ing the free air of independence and impartial thought, it has to the full the warm breath of crude but passion ate humanity. In feeling, however blind, in life, however fragmentary, the onlooker finds more to love in the decorum of a Philistine prosperity .-Norman Hapgood.
